

Transport of piglets from NL to Italy

- **Dead animals: 190**
- Reason for death: „transport stress“ (see below)
- Total number of animals: 900 (belonging to two health certificates)
- **Sender: Vaex from AL Reek (NL)**
- **Transporter: Jaluing**
- Date and time of arrival at destination: 11.05.07, 8:00 o'clock
- Place of destination: Castel Pagano (province Benevento, Region Campania)
- The notification is from the vet office of Benevento (ASL Benevento) ; therefore I suppose the transport has been checked at destination
- The vet office Benevento has disposed an examination of the pigs (blood samples) to determine, if the pigs had some kind of disease. So far the ministry does not know about the outcome of the tests
- Inconsistencies with journey log: It is indicated that the animals had been unloaded at the control post at Manziana (Italy; authorization no. CE 06) from 10.05.07, 8:00 o'clock until 11.05.07, 8:00 o'clock; however, also the time of arrival at destination is 11.05.07, 8:00 o'clock
